1. It is becoming increasingly evident that American dependence on foreign oil, especially oil from countries that support and export terrorism and radical Islamic ideology, poses a growing threat to our national security. There has been considerable discussion of alternative energy such as wind and solar, but neither provide any significant solution for the liquid energy needs of our transportation sector, at least for the foreseeable future. Would you support or oppose each of the following proposals to help move America's transportation sector away from foreign oil dependence and thus better protect our national security?

a. Open Fuel Standard legislation, which would require, within five years, 50% of new automobiles, and within seven years, 80% of new automobiles, sold in the United States, be flex-fuel vehicles warranted to operate on gasoline, ethanol, and methanol, or be warranted to operate on biodiesel.

Muslims are not coming to America to become Americans. They are abusing our laws. This radicalism poses a "clear and present danger" to America.

11. There is little dispute that those who want to build a mosque at "Ground Zero" have the legal right to do so, should they successfully comply with all applicable statutes and codes. 13. According to the Pew Hispanic Center, 1 in every 12 babies born in the United States have at least one parent whose presence here is illegal. This year a number of media sources have reported on the increasing practice of what is called "birthright tourism," where pregnant non-U.S. citizens come to the U.S. to give birth so their children automatically receive U.S. citizenship. One news report revealed how an American hotel actually advertises its "birthright tourism" services. As a result, there are growing calls for congressional hearings to address this issue and examine a possible reinterpretation of the 14<sup>th</sup> amendment to the Constitution, under which "birthright tourism" is now allowed. Would you support or oppose such congressional hearings?
